Life Safety and Security Systems

for Healthcare and Senior Living

ProCare Medical is a complete provider of safety solutions for healthcare, focusing on reliable and dependable systems for healthcare operators to reduce costs of care. With a comprehensive approach, ProCare Medical will consult, assess, design, furnish and provide installation of electronic security solutions for your next project. Let our 30 years of experience, preferred vendor partners, and value-based support solutions create an environment of “safety in caregiving” for your peace of mind.

Wander Management and Elopement Control

For 30 years, we have provided solutions from leading suppliers in elopement control systems including Secure Care Products. These products are in use by hundreds of healthcare organizations locally, and Secure Care is also designing advanced features for RTLS and cut-band technology.

We also support the Roam Alert systems, with replacement modules and parts as needed. The tags for systems are purchased through the manufacturers.

Access Control and Monitoring

From the simple and basic, to advanced and integrated, access control to buildings today is more critical than ever.

Keypads for door control, key fob access, interconnected release buttons and reporting of all activities are available services

Clearly identify visitors, communicate and control access with AIPHONE Video Intercom systems.
